SUBJECT Dismantling at Peenemünde Continues

25X1C

ORIGIN

25X1X

DATE: 25X1A

INFO. [REDACTED]

DIST. 7 July 1947

PAGES 25X1A

SUPPLEMENT

25X1A

1. Dismantling operations are continuing at Peenemünde. Removal of the wiring is almost completed and special attention is being given to the dismantling of the water pipes. All remaining motors are being removed; this latter job is being done under great pressure, mostly by night. The motors are shipped by truck to Swinemünde. An additional one hundred workers, chiefly women, have been added to the dismantling force.

2. However, tests are still being made on the structure of the Brennwagen, under the direction of Ing. Kowing. Work on this apparatus has been delayed by late delivery of parts from Thuringia.

3. Blasting is scheduled to begin shortly. Werk-West, the former Luftwaffe testing station, and Werk-Süd P.I. will be the first installations to be blown up.

4. The Soviet directorate is planning the construction of a large bridge over the Oder. ( [REDACTED] )

5. Poison gas bombs are arriving at Wolgast (P92) and are being packed in new crates.

25X1A

25X1A

Comment: [REDACTED] stated that explosives were being shipped by train from the Halle area to Wolgast, where they were to be sent by water to the USSR.

6. Rail shipments of aircraft scrap iron are continuing from Dargen (L10) to Berlin-Niederschönenseide.
